Circulation: The members of the International Bankers Club

Next luncheon meeting

Dear IBC members

We are very pleased to invite you to our next luncheon meeting which will take place at the Golf Club Grand-Ducal, Senningerberg, on

Friday 20th of October 2017
12.00 – 2.00 p.m.

where we have the pleasure of listening to our Guest Speaker

Etienne Schneider
Deputy Prime Minister and Minister of Economy

Minister Schneider will present to us

The Rifkin Study – The third industrial revolution in Luxembourg

The Ministry of the Economy, the Chamber of Commerce and IMS Luxembourg officially launched in September 2015 the Third Industrial Revolution project for the Grand-Duchy. This project, inspired by Jeremy Rifkin's theory, aims at defining a new long term economic model in which three technologies converge: new information and communication technologies, new sources of energy, and new modes of transportation. This makes Luxembourg the ideal life-size laboratory to test these innovative and smart ideas on a national scale.

Minister Schneider will present the main focus of the Rifkin Study, the status quo and the future impact of the strategic study for Luxembourg.
